

# SmaSys 2015

International Conference on Smart Systems Engineering 2015

*October 8-9, 2015*

The 100th Anniversary Hall, 1F, Yamagata University, Yonezawa, Japan

## Conference Scope

In recent years new smart materials, technologies, and devices have been developed, and are spreading out into many facets of our everyday life and society. To fully achieve their potential, these must be organically linked together as "smart systems", to help support the well-being of society in the future.

SmaSys2015 has been organized to provide a forum for discussing opportunities for collaboration across a wide range of fields and technologies related to emerging smart systems. This conference will focus on emerging technologies and their challenges in the fields of smart materials, devices, systems, and technologies. We believe that smart systems engineering will become an important scientific and engineering field and that SmaSys will have a key role in developing this field.

## Invited Lectures

Naoya AIZAWA (Kyushu University)  
Masao DOI (BeiHang University)  
Sam KASSEGNE (San Diego State University)  
Yasuhiro KOHSAKA (Shinshu University)  
Lijian MA (Sichuan University )  
Kiyoshi MABUCHI (Kitasato University)  
Ken NAKANO (Yokohama National University)  
Raluca Van STADEN (National Institute of Research for Electrochemistry and Condensed Matter, Romania)  
Vijay VARADAN (The Pennsylvania State University)

## Important Dates

Jul. 31: Deadline for Title Submission  
Aug. 31: Deadline for Abstract Submission  
Sep. 20: Early Registration Deadline

## Conference Dates

Oct. 8: Lectures and Banquet  
Oct. 9: Lectures

## Call for Papers

Students, scientists, and engineers who are interested in the smart systems engineering are encouraged to submit papers on any of the selected topics. Students and scientists in other fields, who want to enter this field, are also welcome. Abstract of papers should be submitted through Online Abstract Submission before the deadline. Further information including a format for the abstract preparation and other details will appear later at the website;

<http://smasys.yz.yamagata-u.ac.jp/2015/>

Please email to [smasys@yz.yamagata-u.ac.jp](mailto:smasys@yz.yamagata-u.ac.jp) for further information.

# Advisory Committee

Toyoko IMAE (National Taiwan University of Science and Technology)  
Mitsuru UEDA (Yamagata University, Kanagawa University, National Taiwan University)  
Osamu NIWA (The National Institute of Advanced Industrial Science and Technology)

# Organizing Committee

Chair:  
Tomoya HIGASHIHARA (Yamagata University)  
Vice-Chairs:  
Hiroyuki FURUSAWA (Yamagata University)  
Jin GONG (Yamagata University)  
Secretaries:  
Hidemitsu FURUKAWA (Yamagata University)  
Go MATSUBA (Yamagata University)  
Masato MAKINO (Yamagata University)  
Kumkum AHMED (Yamagata University)  
Kohei OSAWA (Yamagata University)  
Satoshi MIZOI (Yamagata University)  
Takahiro KAMATA (Yamagata University)  
Noriyasu YAMADA (Yamagata University)  
He SUN (Yamagata University)  
Satoshi MIYANE (Yamagata University)  
Hirotaka TAKAHASHI (Yamagata University)

# Sponsors

Innovative Flex Course for Frontier Organic Material Systems (iFront), Yamagata University

## Co-sponsors:

Business Research Institute for Global Innovation, Yamagata University

Total Assistance for Seasonal Foods Transportation from Yamagata (TASTY), Yamagata University

Life-3D Printing Innovation Center (LPIC), Yamagata University

Soft and Wet Matter Engineering Laboratory, Yamagata University

# Venue

The conference will be held in the conference room at the 100th Anniversary Hall, Yonezawa city, Yamagata, Japan. Yonezawa city is located in the center area of eastern Japan. It takes about two hours from Tokyo by the Yamagata Shinkansen. The access map is on the website;

<http://www2.yz.yamagata-u.ac.jp/english/access2010.html>

Conference room,  
The 100th Anniversary Hall, 1F

Main gate of Faculty of Engineering,  
Yamagata University

# Contact Information:

SmaSys2015 Secretariat:

Innovative Flex Course for Frontier Organic Material Systems (iFront) administration office, Graduate School of Science and Engineering, Yamagata University, 4-3-16, Jonan, Yonezawa City, Yamagata, 992-8510 JAPAN, <http://smasys.yz.yamagata-u.ac.jp/2015/>; e-mail: [smasys@yz.yamagata-u.ac.jp](mailto:smasys@yz.yamagata-u.ac.jp)

The background image was taken at Matsugasaki Park in Yonezawa by Prof. Kentaro Taki (Kanazawa University)
